Profile

Results-driven Frontend Developer with experience in building high-performance web applications since 2023. Proficient in JavaScript, Reactjs, Tailwindcss, with a keen eye for creating seamless, responsive user interfaces. Skilled in version control (Git) and modern frontend workflows, ensuring efficient collaboration and clean code. Passionate about learning and implementing emerging technologies to enhance user experience and optimize development processes.

Education

University of Business and Technology, Prishtina | Prishtine,Kosova
Computer Science Engineering

Skills

- **Languages** : JavaScript, Java, HTML&CSS
- **Frameworks**: Reactjs, Tailwindcss, Nodejs
- **Tools**: MySQL, Strapi, Clerk, Cursor, Visual Studio Code ,PowerPoint, Excel
- **Soft Skills**: Problem-Solving, Adaptability, Teamwork/Collaboration, Communication

WORK EXPERIENCE

FreeLancer

FrontEnd Developer Present

Since January 2023, working as a FrontEnd Developer in a freelance capacity has provided the opportunity to engage in a variety of projects. This role focuses on crafting responsive and interactive web applications utilizing an array of technologies such as JavaScript, React, HTML & CSS, Git, and Tailwind CSS. Engaging with clients to capture their visions and turn them into functional web solutions has been a highlight, ensuring that user experience remains at the forefront of all developments.

- Designed and implemented responsive web applications that cater to diverse client needs.
- Optimized the performance of applications through best coding practices and rigorous testing.
- Utilized modern frameworks and libraries to enhance the efficiency and maintainability of code.
- Continually updated knowledge of industry trends to deliver innovative solutions.

PROJECTS

AI Resume Builder (Personal Project)

- Built a **modern AI-powered resume builder** using **React (Vite) and Tailwind CSS** for a fast and responsive UI.
- Integrated **Strapi (Headless CMS)** for managing user-generated content and job summary data.
- Implemented **Clerk authentication** for secure user login, ensuring seamless access control.
- Used **Hugging Face API** to generate **AI-driven job descriptions** based on user-inputted job titles.
- Designed a **minimalist, user-friendly interface** for effortless resume creation and customization.
- Deployed the project for live usage, leveraging **modern web development best practices**.

Hospital Management System (Full-Stack Web Application)

- Developed a **CRUD-based hospital management system** using **Node.js, Express, MySQL, and React**.
- Built a **RESTful API** with **Express.js** and **MySQL** to manage patient records (create, read, update, delete).
- Designed a **responsive frontend** using **React, Tailwind CSS**, and **Fetch API** for seamless interaction with the backend.
- Implemented **authentication and authorization** using **JWT (JSON Web Tokens)**.
- Optimized **database queries** for efficient data retrieval and handling.

Certificates

-
- **Pro:ed**, Programming Education Prishtina— Full Stack Web Development training.
 - **Udemy** - JavaScript Advanced Concepts
 - **Coursera** — Front-End Development Specialization
